# Pop Up S10

## 5x3 back panels

Do not resize the artboard size. It is critical to our preflight process.
Make sure the document color mode is set to CMYK and use CMYK-profile Fogra 39.
**Make your design in the Artwork layer.** Be sure to cover the entire surface of the document with colored backgrounds and/or images with bleed.

| | |
|---|---|
| **Graphics** | Use vector graphics to get a sharp result. |
| **Colors** | Preferably use Pantone Solid Coated otherwise use CMYK values. |
| **Images** | Effective resolution of at least 80 ppi, saved with CMYK-profile. |
| **Text** | Convert text to paths i.e. create outlines. |

When you are happy with the design, save the document as a print-ready PDF.
See the document **How to create a print-ready PDF** (Skapa printfärdig PDF).

— Specifies the joint between panels.
