**Smart marketing where the customer is.**

*For brands that want to be seen, remembered, and chosen.*

## In cooperation with Spennare, supplier of expo products.

Spennare designs, manufactures and sells trade show products such as Roll ups, Graphic walls, Counters, Beach Flags, Tents, Promotional furniture etc. The products are sold exclusively through dealers and thus we can offer service, sales and, representation in more than 30 countries.

The products are most often used in situations where the customer experience is a critical focus.

To better and more easily identify which product works best for you, the products are divided into three segments: Premium, Professional and Impact by Spennare.

### Impact by Spennare

Impact is a segment of products that are quality controlled and cost effective. Suitable for projects with limited budget.

**Spennare limited warranty**

### Professional by Spennare

Professional are high functional quality products with custom design. Suitable for all types of projects.

**Spennare limited lifetime warranty**

### Premium by Spennare

Premium are top of the line designed quality products. Suitable for all types of projects.

**Spennare lifetime warranty**

# Print service

## Artwork for print

All Spennare products have templates for download where the specifications for each product is specified. For most products, these general rules apply:

- Make sure the document's color mode is set to CMYK.
- That vector graphics, such as logos, are specified with spot color from Pantone's color library for coated print media (Pantone Solid Coated).
- Images should have a resolution of around 80 ppi at a scale of 1:1.
- Ensure images are converted to CMYK profile.
- We print based on the CMYK profile Fogra 39.
- Convert text to paths. Alternatively, ensure that the font is embedded in the print-ready PDF.
- Save print-ready PDF in PDF version 1.4 or later version.
- Check the box to save with layers.

## Graphic support

In need of graphic support? We help our customers create print files and other graphic layout work. This will be charged on the invoice as a separate line.

To save both time and your budget, have a clear vision and all necessary hi res images in hand.

### Answer three questions

#### 1. Are there any specific colors and fonts you want to use in your communication?

Colors should be entered in the form of CMYK code or Pantone. Fonts should be specified and provided as requested.

#### 2. Should there be a message in the form text, graphics or photo?

Attach material in the email. Alternatively, send via a file transfer service.

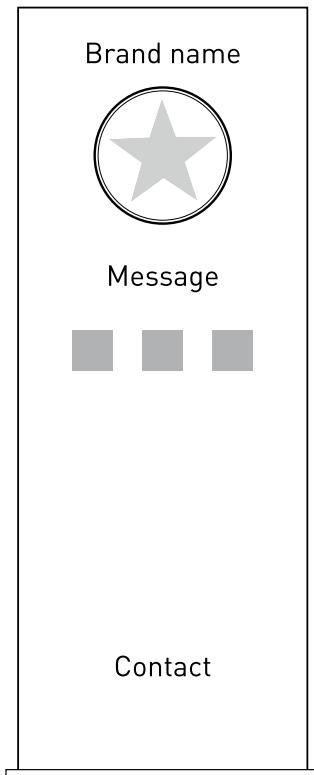

As for the text, everything should be proofread prior to being sent. Graphic elements such as the logo, icons or illustrations should be vectorized and as you want to use them. Pictures must be high resolution.

#### 3. Further information requested:

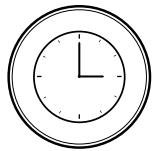

- a) Best contact for any project related questions.
- b) Delivery date; Please specify if the date is firm or if the delivery can take place beforehand.
- c) Delivery address; Please provide the full address along with contact name and number.

### Delivery

We will present a proposal based on the information provided to us. The deliverable is provided for approval and will be edited based on feedback. Once final approval is given, we will start the printing process and we will deliver the finished product to your specified delivery address.

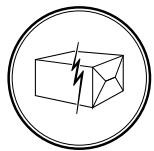

## From order to delivery – here is how it works!

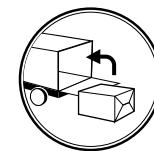

### Shipping

Shipping costs are a normal part of most orders. The cost will be included on the final invoice. Our clients also have the choice of providing their own FedEx/UPS account # or freight carrier. Exceptions for some specific products with longer lead time.

### Damage

Visible transport damages must be noted immediately on the transport driver's hand scanner. Visible and hidden transport damage must be reported to Spennare within 7 days of receipt.

### Returns & complaints

To return an unused product, or to file a complaint please email us: [info@spennare.com](mailto:info@spennare.com)

### Guarantee

We at Spennare guarantee that products from KG Spennare AB are without defect in materials or workmanship, provided that, the product is installed and completed correctly by the dealer and properly handled by the end user. At Spennare's discretion the defective item will be either repaired or replaced.

# Roll up

Event Carpet Filt, Counter Case XL, Roll Up Penta

# Roll Up Luna

60 | 85 | 100

A Roll up with a wide brushed aluminum base. This is the Spennare Roll up for clients who prefer a Roll up without a swivel foot, instead the cassette has the shape of a halfmoon. The telescopic pole allows for any height from 160-225cm. The clamp profile makes graphic change easy. Comes in a durable nylon bag.

Covered by Spennare's Lifetime Warranty.

- › **Wide base**

Flextile

reddot design award  
winner

# Flextile

## 80 | 100 | 120

The next generation of display walls!

Flextile lets you create everything from a striking single column to full-scale exhibition stands and immersive spaces.

Its modular, scalable aluminium frames unlock endless design possibilities – place frames side by side, stack them, build angles, or create impressive double-sided displays.

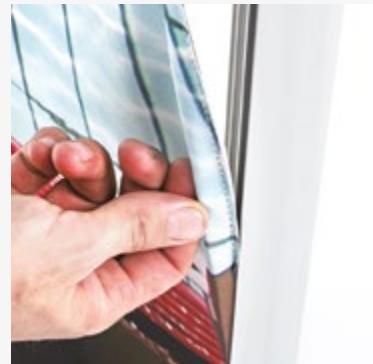

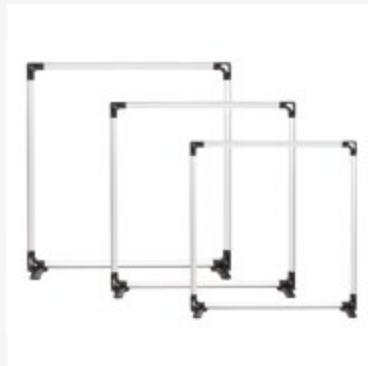

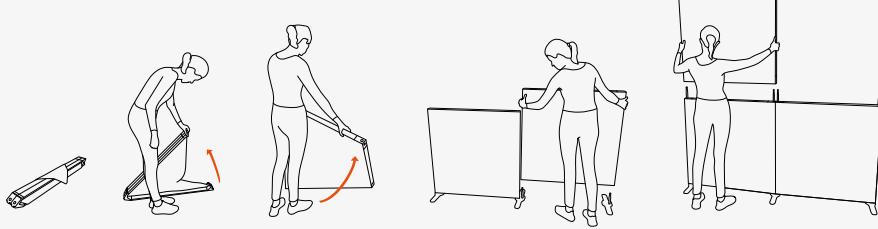

The frames fold flat with the graphics still attached, making transport and setup fast and effortless.

Covered by Spennare's Lifetime Warranty.

- › **Easy to build and modify**
- › **Modular and flexible**
- › **Award winning design**

[View the video on Youtube](#)

## Multiple options

Using the same amount of frames you can alter your Flextile in the best way suitable for a specific event and provided space. Create different configurations and combinations, a straight back wall can also convert to multiple tabletops, or separate displays and a tower.

Flextile is the ultimate solution for messaging flexibility since you can choose between below options for printed graphics.

### One graphic per frame

The easiest set up. The graphics are already installed in the frames. Assemble a small display in just a few minutes.

### One graphic over several frames

A larger graphic that spans across multiple frames, front only or double sided. The SEG graphic inserts easily into the grooves of the frames.

### Double sided pillow case

The pillow case graphic pulls over the Flextile display using a stretch fabric. No more rounded corners, no more pile of aluminum pipes. A pillow case display made simpler and better.

## Create a wider image by adding more frames

4 pieces Flextile frames

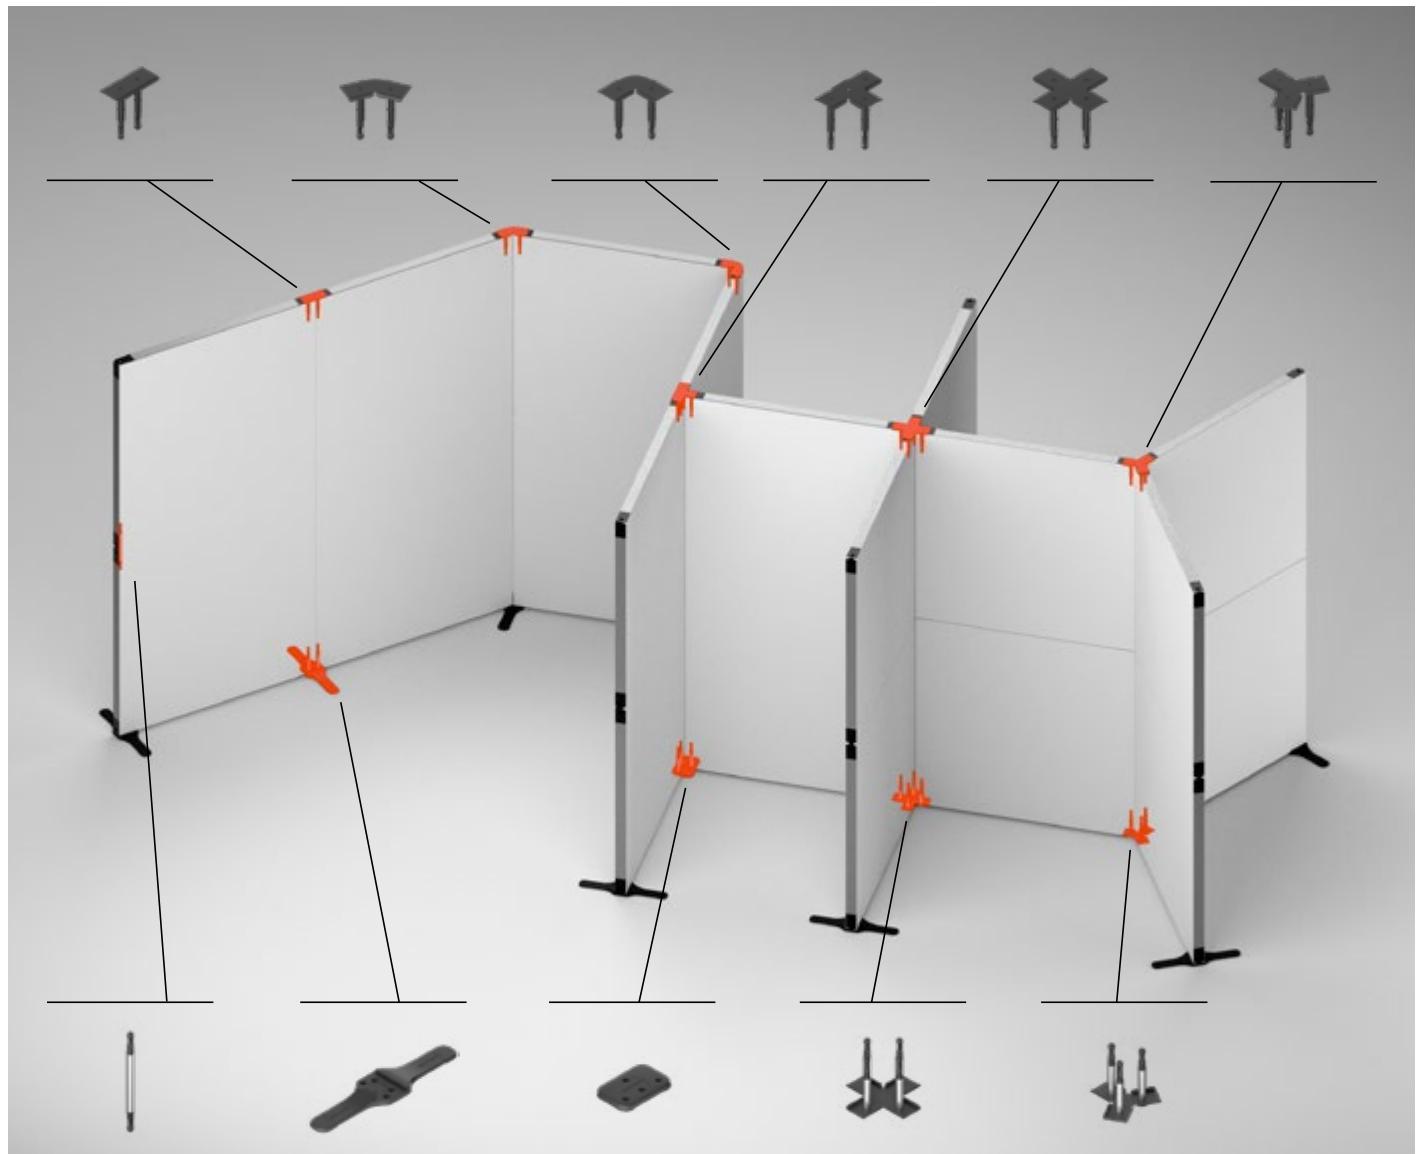

6 pieces Flextile frames

8 pieces Flextile frames

## Flextile components

**Top connector Straight**  
For straight connections

**Top connector X**  
For X-connections

**Foot connector Multi**  
For straight, 90°,  
T- and X-connections

**Top connector 45**  
For 45° connections

**Top connector Y**  
For Y-connections

**Foot connector X**  
For X-connections

**Top connector 90**  
For 90° connections

**Connector rod**  
For stacking frames

**Foot connector Y**  
For Y-connections

**Top connector XT**  
For T- and X-connections

**Foot connector**  
For straight, 45° and  
90° connections

## The greatness of Flextile - countless configurations

With the same number of frames, there are several possibilities. Here you see a selection of configurations you can build. The size and floor space required depend not only on the number of frames but also on the frame size you start with. On [spennare.com](http://spennare.com), you can find even more possible configurations. There, you can also create sketches with your own artwork on the wall.

**Sketch with your own image  
on the Flextile wall**

## Flextile Illuminaiton kit

100 | 120

**Add a lightbox-compatible graphic panel\***  
– unless you produce it yourself

[View the video on Youtube](#)

The Flextile Illumination Kit is available for frames in 100 cm and 120 cm sizes.

It consists of an illumination panel with thin, parallel LED strips mounted on a flexible material that can easily be rolled up and transported in the included carrying bag.

The illumination panel is mounted on the back of the Flextile frame using a silicone strip.

The kit can also be purchased with a lightbox-compatible graphic panel, which is attached to the front of the frame.

A transformer and connection cable are included in the kit. The Flextile frame is sold separately.

- › **Maximum visibility**  
– each frame lights up like a lightbox
- › **Customize the lighting frame by frame**  
– no tools needed
- › **The lighting kit integrates seamlessly with Flextile**

## Wally

60 | 80 | 100 profiles

Wally is a modular, wall-mounted lightbox made of aluminum with built-in LED. A full-color printed fabric panel is easily stretched by hand into the frame, resulting in a perfect, smooth, and wrinkle-free finish.

Wally is entirely unique in its class and is constructed in sections with user-friendly quick connectors. Choose from a variety of sizes, ranging from 60x60 cm all the way up to 400x240 cm – in sections of 20 cm. The frame depth is only 8 cm.

Everything is delivered in parts for easier transport. The parts are easily assembled with the help of quick connectors, without the need for professional installers or electricians.

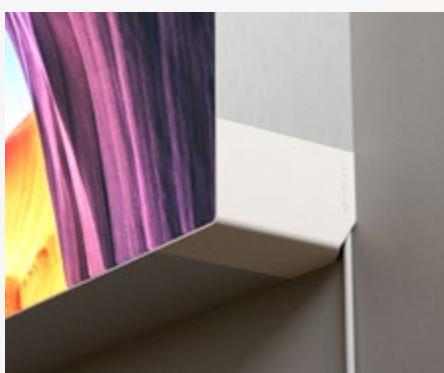

Covered by the Spennare limited warranty..

- › **The entire design is illuminated**
- › **Easy assembly without professional assistance**
- › **Efficient packaging**

Size	Choose height and width starting from 60 cm
Alu-profile	80 mm LED strip in aluminum

### Customize your own size for Wally

You can customize the size of your Wally frame in 20 cm intervals for both width and height! The price list provides examples of selected sizes.

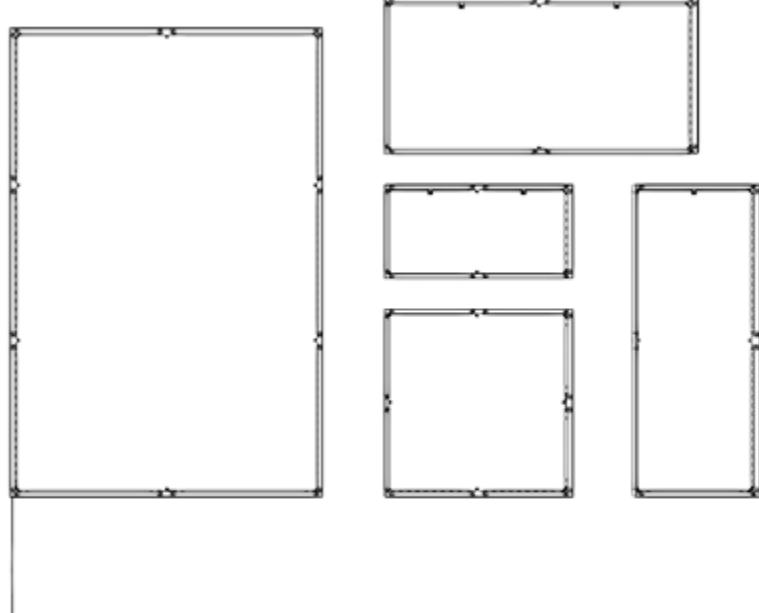

## Wally is a modular lightbox for wall mounting

The perfect solution for showcasing your marketing message. Wally is user-friendly and designed so that you can easily assemble the lightbox yourself, without the need for professional installers.

With minimal shipping volume, Wally is easy to transport and delivers maximum impact – creating an impressive visual effect wherever you use it. From trade shows and temporary venues to stores and shop windows, you can easily customize the size of the lightbox to suit your needs, from 60 cm up to several meters.

**Versatility + durability = Maximum long-term value**

### Flexible and adaptable for long-term use

Wally is designed with flexibility and user-friendliness in mind. That's why Wally is both easy to assemble and tool-free.

Wally's flexibility allows for frame sizes from 60x60 cm up to 400x240 cm, in increments of 20 cm. Square or rectangular frames. One shape can easily be converted into another without the need to purchase an entirely new set. Traditional wall-mounted lightboxes simply don't solve that problem.

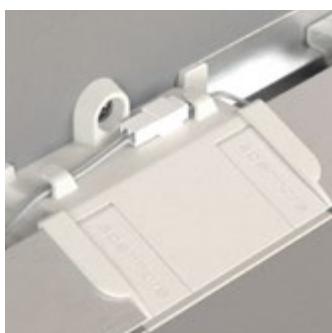

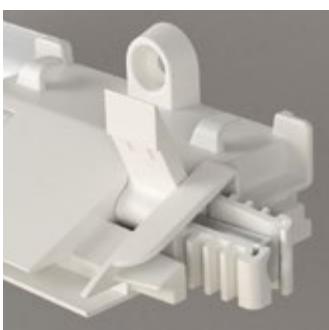

**Create outstanding brand exposure with ingenious  
plug-and-play installation**

**- mount it on the wall and let your message shine!**

### **User-friendly**

The carefully designed quick connectors make it easy to assemble the aluminum profiles with built-in LEDs. It's just as easy to customize the size and shape of your lightbox to fit the available wall space. If the space changes, Wally can change with it.

**Installing lightboxes for  
brand exposure or store  
communication has never  
been easier.**

### **Well-planned packaging**

All frames and connector sets come well-packaged in custom cartons to optimize both shipping and handling.

## Event Tent

3 | 3PRO | 4,5 | 6

3x3 m    3x3 m PRO

4,5x3 m

6x3 m

A sturdy and easy-to-assemble tent with a frame made of hexagonal aluminum profiles. Well-suited for repeated use.

The tents are 3 meters deep, up to 6 meters long, and the height is adjustable. Choose between solid-colored roofs and walls or fully printed designs.

The frame is robust, and the roof fabric can remain on the frame when the tent is folded. A simple carrying bag, storm lines, and stakes are included as standard.

The 3-meter version is also offered in a reinforced PRO model, featuring sturdier octagonal aluminum profiles..

The material is waterproof, PVC-free, and fire-rated B1.

- › **Sturdy construction**
- › **Simple to mount/dismount**
- › **High impact print**

### Event tent with full-color print

Full color print is ideal for setting your own PMS colors or design. Multiple logos in different colors and even printed photos.

### A solid-color tent with logo print

Choose a solid-colored textile from any of our 11 standard colors and customize it with logos applied using full-color transfer printing on limited areas..

### A solid-color tent without logo print

Solid-colored event tent without print. Choose a solid color fabric from our selection of 11 standard colors.

## Event Tent printed

3 | 3PRO | 4,5 | 6

Fully printed roofs and walls with your desired size! The tent fabric is printed edge-to-edge in full color using sublimation printing, allowing vibrant designs on all available textile surfaces.

Choose a frame with a printed roof and add walls if needed from the table below. The textile is water-repellent, PVC-free, and fire-rated according to B1 standards.

A carrying bag, storm lines, and stakes for securing the tent to the ground are included as standard.

For added convenience, upgrade with a wheeled, extra-strong bag and other accessories available on the upcoming accessories page.

- › Unique design
- › Print both logos and images
- › Match corporate colors

## Solid-colored event tent with screen-printed logos

Screen-printed tents can be cost-effective starting from as few as three sets and are best suited for simple designs with up to four colors. Screen printing is most economical when the colors are solid, without gradients or photographic details.

We use dyed tent fabric that is then screen-printed with logos. The maximum size for a screen-printed logo is 120x120 cm. Below are examples of the standard colors available for the tent fabric.

The production cost per tent decreases when the same design and logo size are printed in larger volumes, as the setup costs for the colors and stencils are fixed.

Standard Colors for the textile. Our tent fabrics in standard colors are fully dyed-through. The color is identical on both sides of the material.

### Feel free to request a quote for your desired configuration

Please request a quote as the conditions vary depending on several factors:

- Number of sets
- Number of walls per set
- Number and placement of logo prints
- Number of colors

### Event Tent 3x3 – Price example

Event tent 3x3 meters with standard blue fabric and three walls, displaying the same logo (identical in color and size) applied on both the roof and walls.

#### Package Includes:

- Frame, including roof fabric and 3 walls
- Screen-printed logo on 4 roof triangles and one logo per wall, for a total of 7 screen-printed logos
- Carrying bag, stakes, and storm lines

#### PRICE EXAMPLE

**1 597 euro/pc**

Price per complete event tent when ordering 4 identical sets.

## Banner

### Custom size

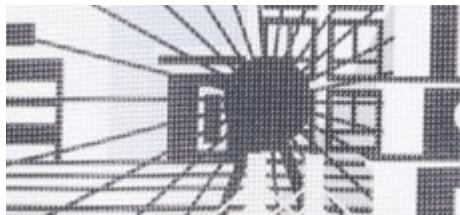

Tailor-made banners for different occasions but a variety of suspension options. We offer several different materials with specific properties that are good for different conditions, such as facades, fences, walls and wind protection. Here are the most common banner materials we produce.

#### Options

Eyelets, Keder list, wooden pole, Velcro

**Frontlite:** Fire-rated smooth banner. With high UV resistance requirements, this banner is durable and weather-resistant, making it ideal for outdoor use.

**Mesh:** Banner material made of perforated mesh fabric. Perfect for buildings, fences, and exposed areas where air permeability is crucial. Fire-rated with high UV resistance requirements. Suitable for both temporary and long-term use.

**PVC fri NonWoven:** Pressed textile in 150 g Polyester. Suitable as fence banners or pallet covers. It's durable and can withstand water and exposed environments. Use for events or construction sites where you want to create a border around an area.

**Fairlyn Mesh®:** An environmentally friendly alternative to PVC banners that has the same good quality and function. Made of 100% polyester without toxic solvents and heavy metals. Stronger and more elastic than PVC Mesh and better suited for colder climates because it does not stiffen and crack as easily from the cold.

Stronger and more elastic than PVC Mesh.  
Weight reduced by 30%. Fast installation and less damage to the facade.

Material	3–5 m <sup>2</sup>	5–25 m <sup>2</sup>	25–100 m <sup>2</sup>

# Banner

## Finishing

There are various suspension solutions when you are going to mount banners. As a standard, our banners come with edge reinforcement and eyelets every 50 centimeters.

Other hanging solutions include sewn channels for aluminum or wooden rods. Keder is a good alternative for exposed locations. Installation with keder requires a keder profile to be mounted on the wall.

### Standard finishing of banners included in the m<sup>2</sup> price

#### Edge reinforcement

Double-folded material welded to a sturdy edge.

#### Eyelet

In standard finishing, an eyelet is included every 50 centimeters.

### Common suspension solutions to choose from at extra cost

#### Keder

Diameter: 7,5 mm  
Length: Custom

#### Channel

Sewn channel at top and bottom for mounting and suspension with rod.

# Fabric Banner

## Custom size

PVC-free banners made of polyester fabric. Hang a message from the ceiling or attach to the wall.

We offer several different materials with specific properties that fulfills various requirements. Everything from decorating a whole exhibition wall to ceiling hung options. Or even parade flags!

The most common materials we make fabric banners from are polyester (approx 110g) and polyester (approx 205g).

- › **Fire retardant B1**
- › **High print quality**
- › **Custom shapes**

### Options

Eyelets, Metal bar at bottom and top, Aluminum snap profiles, Pole pockets, Velcro

**Polyester, approx 110 g.** Lightweight and effective solution for showcasing your message. The printed design allows your graphics to be visible in reverse on the backside as well, enhancing visibility and providing a professional appearance.

**Polyester, approx 205 g.** This slightly denser polyester banner is a reliable solution for trade shows, store displays. It is sturdy enough to withstand various weather conditions, yet easy to handle and install. Its print-friendly features produce sharp and clear images, making it a cost-effective tool for communicating your message.

**Block-out.** Polyester banner with blockout properties, ensuring no transparency from the back. Ideal for trade shows, events and store windows advertising. Easy to handle, weather-resistant, and cost-effective.

# Fabric banner

## Finishing

There are various hanging solutions when mounting fabric banners. As a standard, our fabric banners always come with a hem and double stitching.

Other hanging solutions include sewn channels for aluminum or wooden rods. Keder is a good alternative for exposed locations. Installation with keder requires a keder profile to be mounted on the wall.

### Eyelet

In standard finishing, an eyelet is included every 50 centimeters.

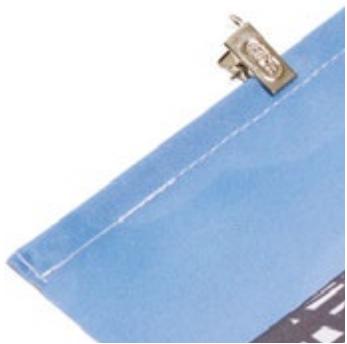

### Aluminum rod

Diameter: 20 mm  
Length: Custom up to 140 cm

### Wooden rod

Diameter: 20 mm  
Length: Custom up to 140 cm

### Metal rod with crocodile clips

A 4 mm metal rod is sewn into the hem, both at the top and bottom. Comes with crocodile clips at the top for mounting from the ceiling or on the wall.

### Velcro

Sewn-on Velcro around the back of the banner. Corresponding Velcro, with double-sided adhesive tape for mounting on, for example, a wall, is sent separately on a roll.

## Event mat

Dye sublimation printed mats in various materials for impactful floor exposure. For larger surface areas, the event mat is produced in multiple sections—up to the maximum width—with precise pattern matching.

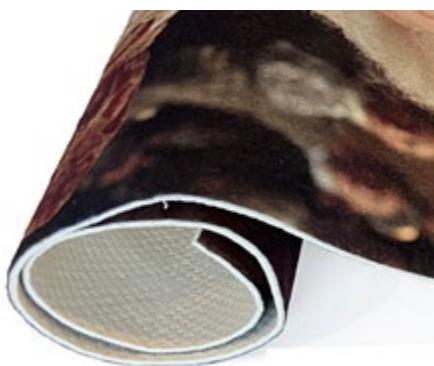

**Felt:** A semi-soft mat with a limited lifespan. Suitable for promotional campaigns and exhibition stands. Approximate height of 12 mm from the floor. Maximum width in one piece: 220 cm.

**Vinyl:** A firmer mat with excellent print quality. Suitable for retail environments and promotional use. Maximum width in one piece: 220 cm.

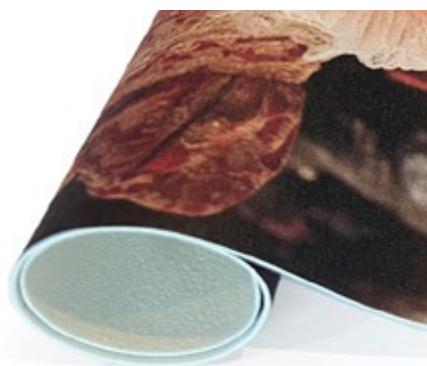

**Promo Rubber:** A flexible mat with a surface printed in photo quality. The non-slip rubber backing ensures the mat stays firmly in place without movement. Suitable for retail, office, exhibition, and public environments. Maximum width: 150 cm.

Event mat Filt	80 €/m <sup>2</sup>
Event mat Vinyl	93 €/m <sup>2</sup>
Event mat Promo Rubber	79 €/m <sup>2</sup>

# Advertising flag

Full color printed advertising flags of various sizes, shapes and configurations. Choose from our different materials according to need and use. All materials are printed with photographic print with 100% penetration so the subject is mirrored on the back. A flag is always delivered edge-reinforced with the associated suspension device according to what might be needed (incl. in the price). For larger quantities (at least 20 flags) we also offer screenprint on the same material. Ask for a quote!

## When is digital printing suitable?

- When the design is complex with many colors or photographic details.
- When you only need a small quantity of flags.
- When the design changes frequently, or you want to test multiple versions.
- When fast delivery is important.

**Marine Polyester 160gr:** Woven polyester. A classic and strong flag material that can withstand greater stress. The edges are folded and sewn. Hooks and other clothing as desired.

**Polyester 110g:** thin knit polyester. Suitable material for shorter campaigns and less exposed environments/situations. The edges are folded and sewn. Hooks and other clothing as desired.

**R-PET polyester 110g:** Environment-friendly alternative. Same product features as Supralon. Thinner knitted polyester made from recycled PET material (5 PET bottles per m<sup>2</sup>). Printed with water-based paint, without environmentally hazardous substances. The edges are folded and sewn. Hooks and other clothing as desired.

**Choose from our suggested sizes or decide for yourself both shape and size.**

Material	3–5 m <sup>2</sup>	5–25 m <sup>2</sup>	25–100 m <sup>2</sup>
Marine polyester, custom size	46 €/m <sup>2</sup>	34 €/m <sup>2</sup>	31 €/m <sup>2</sup>
Polyester, custom size	29 €/m <sup>2</sup>	22 €/m <sup>2</sup>	20 €/m <sup>2</sup>
R-PET polyester, custom size	32 €/m <sup>2</sup>	24 €/m <sup>2</sup>	22 €/m <sup>2</sup>

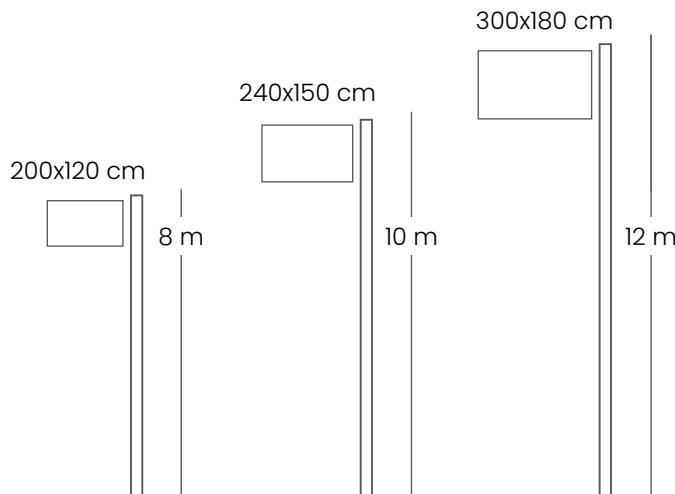

## Digital printed advertising flag

Standard size or custom size

Full color printed advertising flags of various sizes, shapes and configurations. Choose from our different materials according to need and use. All materials are printed with photographic print with 100% penetration so the subject is mirrored on the back. A flag is always delivered edge-reinforced with the associated suspension device according to what might be needed (included in the price).

Recommended sizes:

**For larger quantities (20 flags or more) we also offer screenprint on the same material  
Ask for a quote**

Material	2-3 st	4-10 st	11-25 st
Polyester 200x120 cm	71 €	53 €	48 €
R-PET polyester 200x120 cm	77 €	57 €	52 €
Marine polyester 200x120 cm	110 €	82 €	74 €

Marine polyester 300x180 cm	246 €	185 €	166 €

**Other Sizes and Quantities?  
Please request a quote**

The production cost per flag decreases when the same design is printed in large volumes, as the color and stencil setup are fixed costs.

The price is based on the flag's size, the number of print colors, and the quantity. The minimum order quantity is 20 units.

### Marine polyester 160g

The table shows price examples for standard sizes.

Size 200x120 cm	1+0	2+0	3+0	4+0
30 pcs	43,7 €	50,4 €	57,1 €	63,8 €

100 pcs	74,1 €	76,8 €	80,6 €	83,9 €

## Screen printed advertising flag

Standard size or custom size

Screen-printed advertising flags are cost-effective for larger quantities and are best suited for simple designs with up to four colors. Screen printing is most economical when the colors are solid, without gradients or photographic details. The design appears mirrored on the reverse side due to the dye-through effect.

Choose from three different flag materials depending on your needs and intended use. All flags are delivered with reinforced edges and included mounting hardware (included in the price).

### Polyester 110g

# Inflatable products

## High quality inflatable products

Products marked with AirSeal by Spennare have remarkable quality. The products are easy to fill with air and thanks to the valves, the air stays in the tubes. The product keeps its stability and shape, no noisy fans required! The overpressure valves prevent overfilling helping avoid user error.

Full-color printed fabrics allow the entire surface to reflect the brand's vision.
